

Create blank order

To create a new blank order, follow these steps:

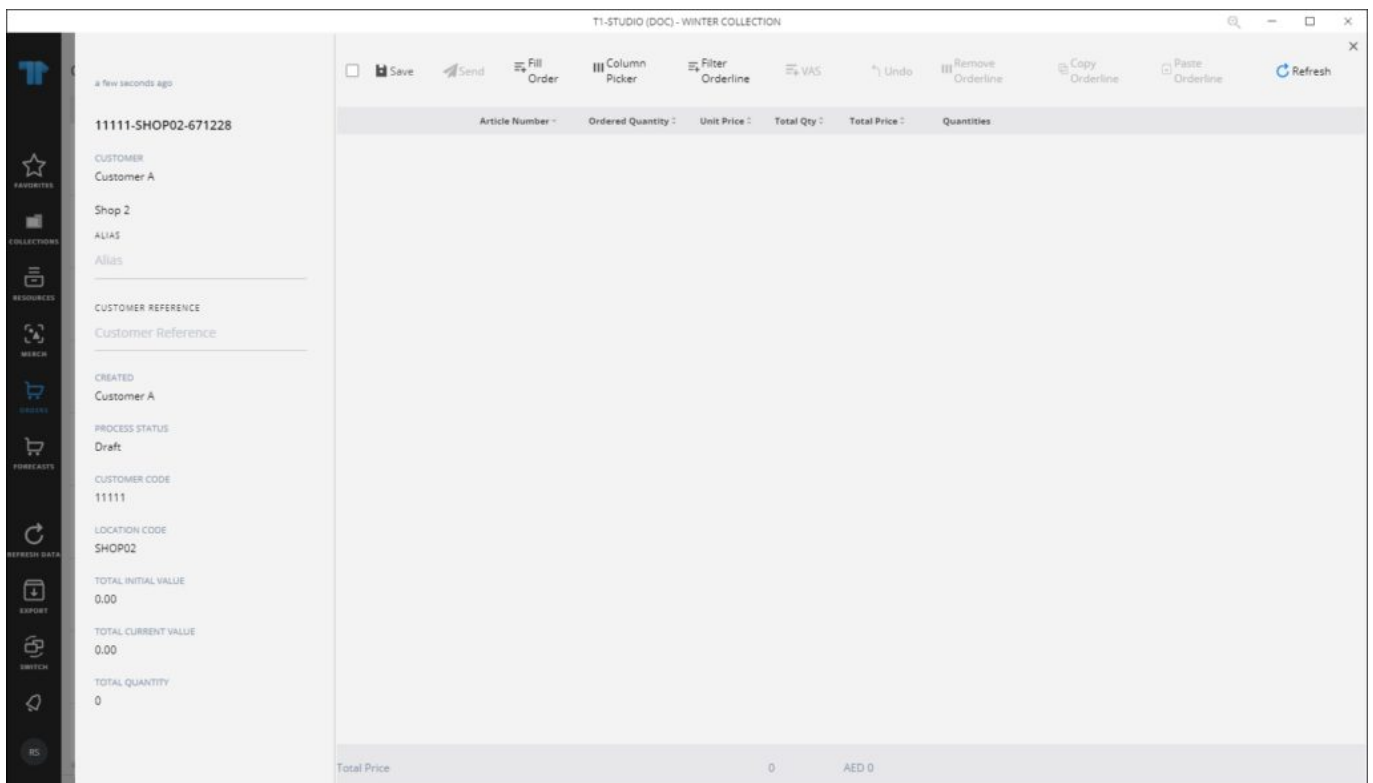

1. Click **+Create**, the following window appears:

The screenshot shows a 'Create Order' dialog box with a close button (X) in the top right corner. The title 'Create Order' is centered at the top. Below the title, the text 'WHAT TYPE OF ORDER WOULD YOU LIKE TO CREATE' is displayed. There are two radio buttons: 'Blank Order' (selected) and 'Order From Favorites'. Below this, there are four input fields, each with a red asterisk indicating a required field. The first field is labeled 'Customer' and has a placeholder text '* CUSTOMER (DISPLAYING FIRST 100 ITEMS, PLEASE START TYPING TO DISPLAY MORE...)' and a close button (X) on the right. The second field is labeled 'Location'. The third field is labeled 'Alias'. The fourth field is labeled 'CUSTOMER REFERENCE' and has a placeholder text 'Customer Reference'. At the bottom of the dialog, there are two buttons: 'CANCEL' and 'SAVE'.

By default, the (Blank Order) radio button is selected.

2. Select the customer, this option is only available if the selected customer is “Full Range”,
3. Select the location to which you want to add the order,
4. Enter the order alias and customer reference, if you want, each in its field,
5. Click **Save**. The order is created as shown in the below example and it does not contain any orderlines:

The order status is “Draft”. To add orderlines, please refer to [“Fill order”](#).

Note:

- If stocks are activated for the selected catalog, another field appears to enable you to select the stock against which the quantities are validated. The window appears as shown below:
