

Filter orderline

To filter orderlines of a specific order, you can click **Filter Orderline** button, search fields appear as shown in the below example:

The screenshot displays a software interface for managing an order. On the left, a sidebar contains order details for order ID 11111-SHOP01-995685, including customer information (Customer A), shop (Shop 1), alias (Alias), customer reference (Customer Reference), creation details (Customer A), process status (Draft), customer code (11111), location code (SHOP01), total initial value (25000), total current value (25000), and total quantity (250). The main area features a table of orderlines with columns for Article Number, Ordered Quantity, Buyer Forecast, Buyer Forecast Value, Seller Forecast, Seller Forecast Value, and Unit Price. A red box highlights the filter fields above the table. The table lists five items, each with a checkbox, a VAS icon, an image, an article number, and a unit price of AED 100. The items are: a grey sweater (90753), a red sweater (8736), a tan sweater (8691), a red sweater (85643), and a green hat (58836). A 'Total Price' label is visible at the bottom of the table area.

	Article Number	Ordered Quantity	Buyer Forecast	Buyer Forecast Va...	Seller Forecast	Seller Forecast Va...	Unit Price
<input type="checkbox"/>	90753						AED 100
<input type="checkbox"/>	8736						AED 100
<input type="checkbox"/>	8691						AED 100
<input type="checkbox"/>	85643						AED 100
<input type="checkbox"/>	58836						AED 100

Depending on the column data type, filter fields differ, i.e. date range picker, or dropdown menu, etc.

Enter the values you need, orderlines matching the entered value is returned.
