

Set sizes (bulk) by licensee style number

Through this option, you can upload a file with multiple size scales to assign to licensee styles. The size scale and licensee style number should be mapped. To import a file with size scales, follow these steps:

1. Click **Set sizes (bulk) by licensee style number** button, the following window appears:

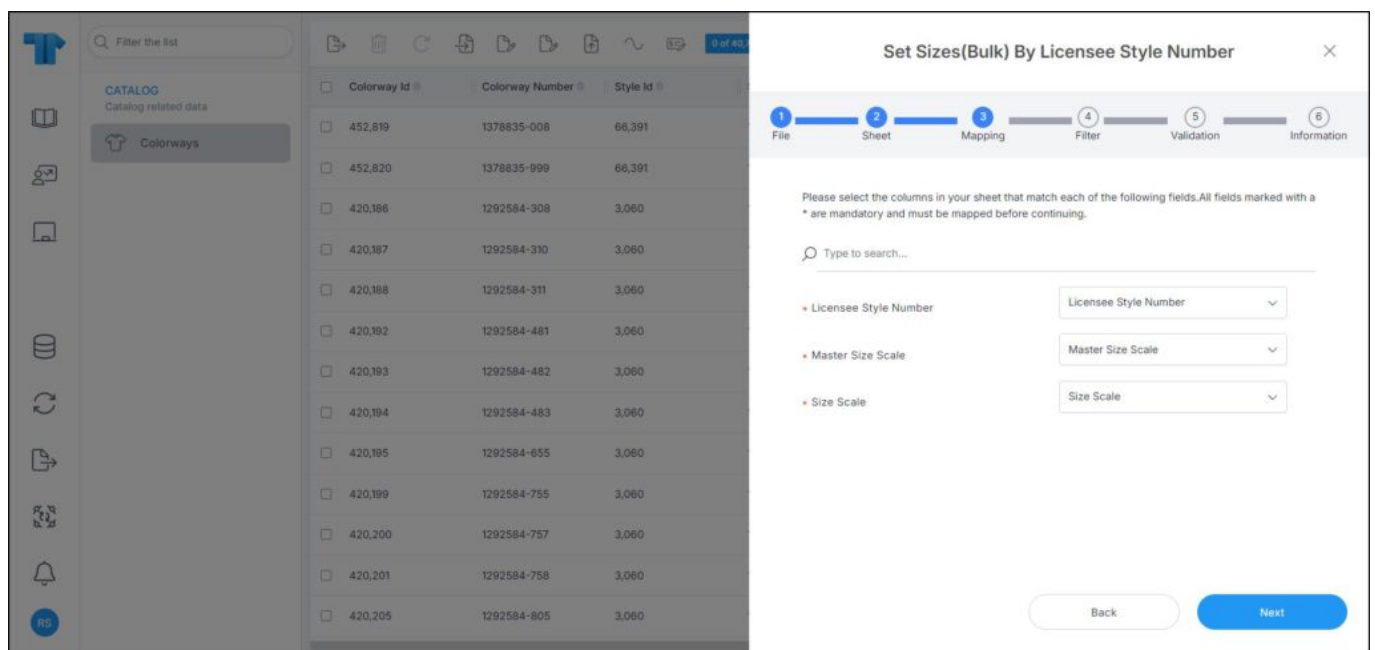

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:

6. Select the column of the sheet that matches each field, you can search for the field you

want using the search field, then click **Next**, the following window appears:

The screenshot shows a software interface with a sidebar on the left containing icons for various functions. The main area is divided into two panels. The left panel, titled 'CATALOG' with the subtitle 'Catalog related data', has a 'Colorways' tab selected. It displays a table with three columns: 'Colorway Id', 'Colorway Number', and 'Style Id'. The table contains 15 rows of data. The right panel is titled 'Set Sizes(Bulk) By Licensee Style Number' and features a progress bar with six steps: 1. File, 2. Sheet, 3. Mapping, 4. Filter (currently active), 5. Validation, and 6. Information. Below the progress bar, a question asks: 'Would you like to import all the rows in the sheet or only the rows that match a specific criteria?'. There are two radio buttons: 'Import All Rows' (selected) and 'Import Only the Rows that match the following criteria'. At the bottom right, there are 'Back' and 'Next' buttons.

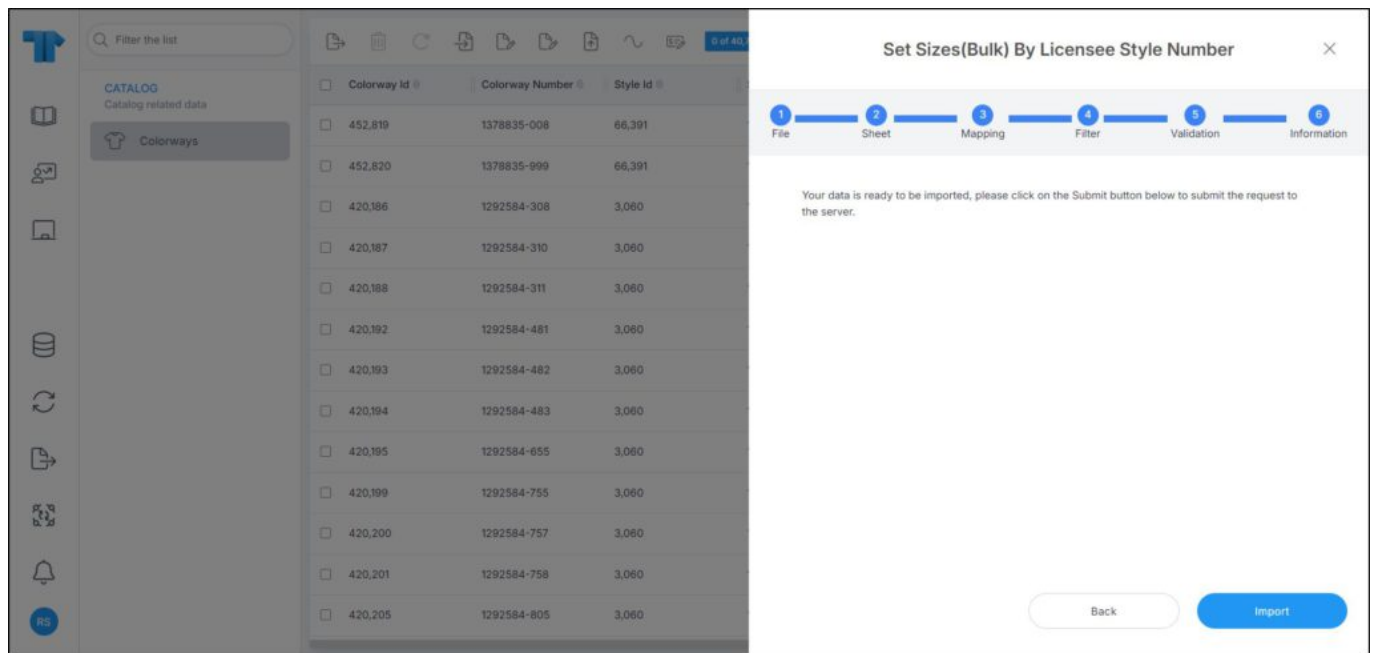

| Colorway Id | Colorway Number | Style Id |
|-------------|-----------------|----------|
| 452,819 | 1378835-008 | 66,391 |
| 452,820 | 1378835-999 | 66,391 |
| 420,186 | 1292584-308 | 3,060 |
| 420,187 | 1292584-310 | 3,060 |
| 420,188 | 1292584-311 | 3,060 |
| 420,192 | 1292584-481 | 3,060 |
| 420,193 | 1292584-482 | 3,060 |
| 420,194 | 1292584-483 | 3,060 |
| 420,195 | 1292584-655 | 3,060 |
| 420,199 | 1292584-755 | 3,060 |
| 420,200 | 1292584-757 | 3,060 |
| 420,201 | 1292584-758 | 3,060 |
| 420,205 | 1292584-805 | 3,060 |

7. Click the radio button next to the import method, either all rows or rows that match certain criteria, a validation window appears informing you if records are valid or not, if not, you need to fix the sheet then import the file again,
8. Click **Next**, the following window appears:

The screenshot shows the same software interface as before, but the 'Validation' step (step 5) is now active in the progress bar. The main content area displays the following information: 'Status: Finished', 'Total Valid Rows: 4', 'Total Invalid Rows: 4', and 'Total Skipped Rows: 0'. Below this, a warning message with a red triangle icon states: 'There are currently some invalid rows, please rectify these issues before continuing.' To the right of this message is a 'Get Result' button. At the bottom left, there is a 'SKIP INVALID ROWS' checkbox which is currently unchecked. At the bottom right, there are 'Back' and 'Next' buttons.

The above example shows that some records are invalid. You can click the **Get results** button to download the results file and check the error then import the file again, or click the slider next to Skip invalid rows. When the slider is on, the **Next** button is activated.

9. Click **Next**, the following window appears:

11. Click **Import**, the progress is displayed and can be tracked through the Notifications module,
12. Refresh the page to display the updated records.
