

Edit favorites

You can add colorways to favorites through both Catalog and Colorway details windows.

Catalog window:

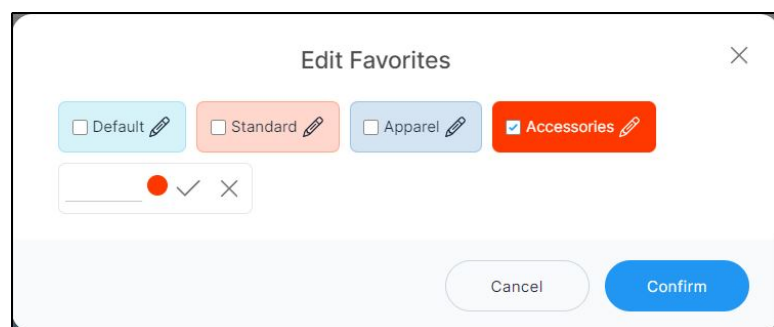

To add colorways to Favorites, follow these steps:

1. Click the checkbox next to colorway(s) you want,
2. Click **Edit Favorite** from the menu that appears at the bottom of the window, the following window appears:

By default, only the Default tag is available. The above shows other tags added to the catalog.

3. Click the checkbox next to the tag to which you want to add the colorway, or click **New tag** and enter the name as shown in the below example:

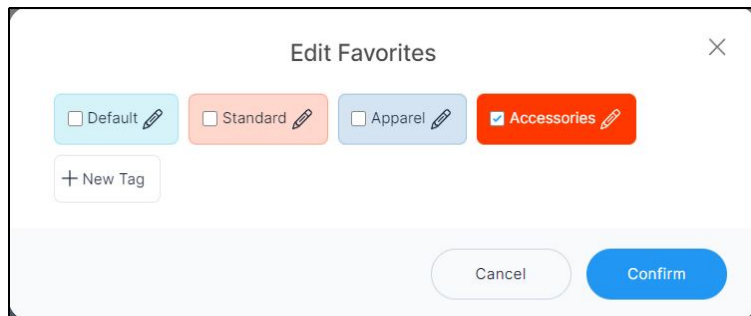

You can also change the color of the tag, the click the checkmark next to it to confirm adding the tag and assigning it to the colorway.

4. Click **Save**, colorway(s) is added to favorites.

Colorway details window:

To add colorways individually to favorites, view the colorway you want, then click Tags, the following window appears:

Follow the steps mentioned above.
