

Edit prices

You can edit prices for one or more colorways. To do so, view the colorway and select “Edit prices” from the Actions menu, the following window appears:

The screenshot shows a user interface for editing prices. On the left, a bar chart displays 'SKUs' for 'SS24' with a value of 2.0. Below the chart is a table with columns for 'SEASON', '6M', 'Q2', 'Q3', 'Q4', 'STORY TIER', 'CALENDAR', 'COMP STYLE', and 'MERCH COMMENTS'. The 'SS24' row is highlighted in yellow and contains 'P01 - Accessories + P02 - Accessories + + +'. The 'Edit Prices' modal window is open on the right, showing three input fields: 'WHOLESALE PRICE (USD)' with value 10, 'MSRP (USD)' with value 10, and 'OUTLET PRICE (USD)' with value 0. There are 'Cancel' and 'Update' buttons at the bottom of the modal.

Enter the prices then click **Update**. You can also select multiple colorways then click **Edit prices** and repeat the steps mentioned above.

Notes:

- If the flag “Apply price by style” is activated for the catalog, the price is updated for all the colorways of that style, if the user has the required privileges.
- If prices are locked for the selected colorway state, they cannot be updated and fields are deactivated as shown in the below example:

6000860 / Shorts / Production

SKUs

WHOLESALE PRICE (USD): 9

MSRP (USD): 18

OUTLET PRICE (USD): 0
