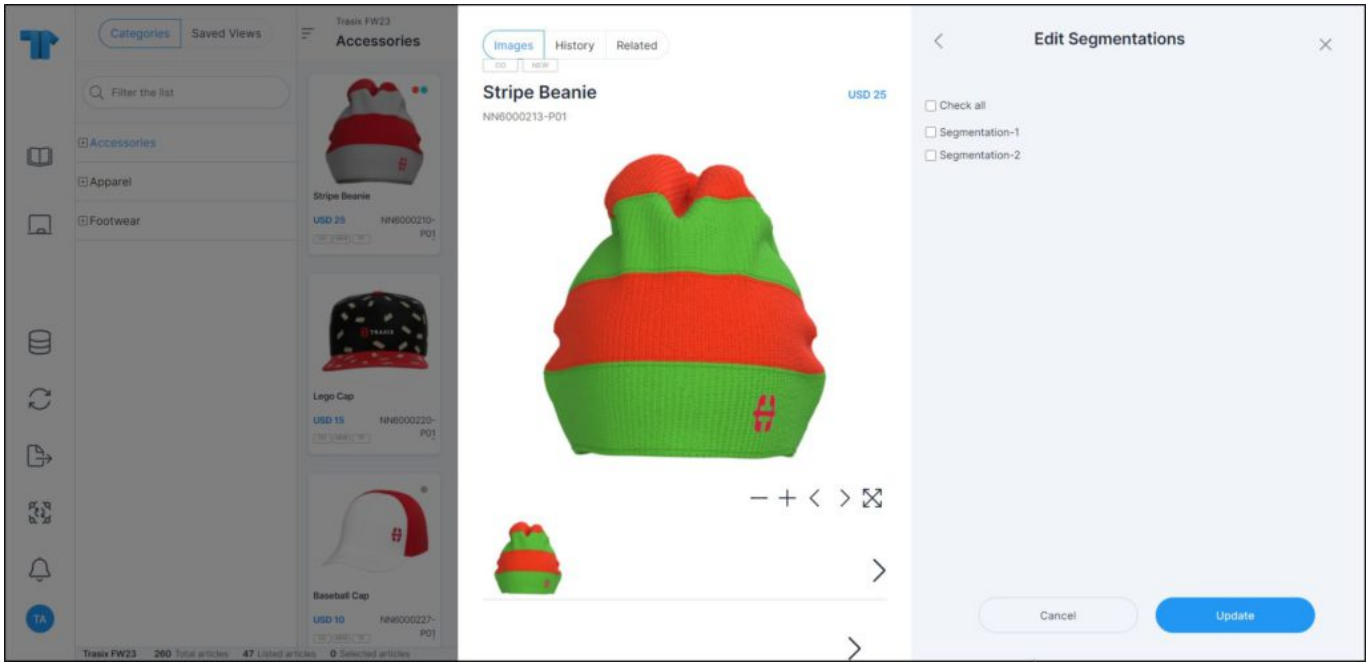
Edit segmentations

You can update segmentations for single or multiple colorways. This option is only available for Full Range customers and Live catalogs, if the catalog is configured to show this option and the user has the required privileges.

Single colorway segmentation update

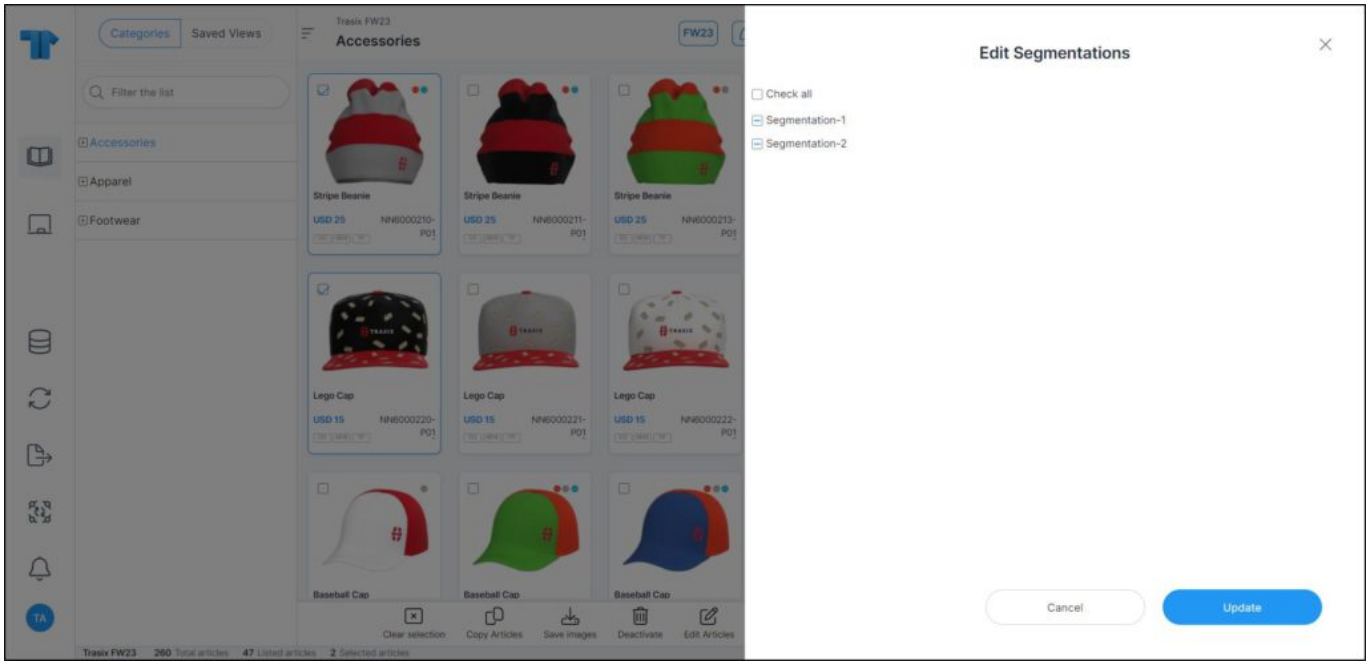
To update segmentations for a single colorway, view the colorway then select **Edit Segmentations** from the Actions menu, the window appears as shown in the below example:



Click the checkbox(es) next to the segmentation you want to assign to the colorway, or click the checkbox next to Check all to assign all the segmentations then click **Update**.

Multiple colorways segmentation update

To update segmentations for multiple colorways, select the colorways you want, then click Edit segmentations button, the following window appears:



Click the checkbox(es) next to the segmentation you want to assign to the selected colorways, or click the checkbox next to Check all to assign all the segmentations, then click **Update**.

Note:

- If segmentation planning is activated for the catalog, you can select the value for each segmentation as shown in the below example:
