

Group by and Saved views

Saved views are used to keep colorways displayed into groups as per your preference into rows and columns. Saved views can be managed through the **Saved views** tab as shown in the below example:

Your saved views and the catalog level views or Predefined views, are listed in a tree structure within folders and you can click any of them to display colorways as per the selected view.

Saved views only work while using the row and/or column dividers. To display colorways within rows and columns, click the Group by icon, the following window appears:

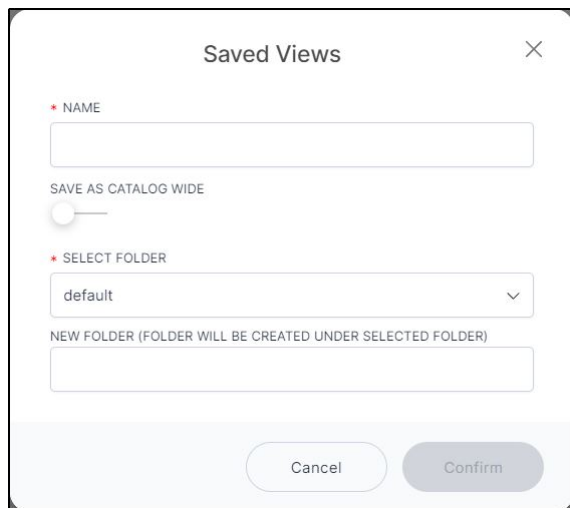

Select attributes or properties by which you want to group the colorways from the column and row dividers fields. Colorways are displayed as per the selected dividers.

Add saved view

You can save the preferred view by following these steps:

1. Go to the Saved views tab then click the add button, the following window appears:

The 'Saved Views' dialog box is a light gray window with a close button (X) in the top right corner. It contains the following fields and controls:

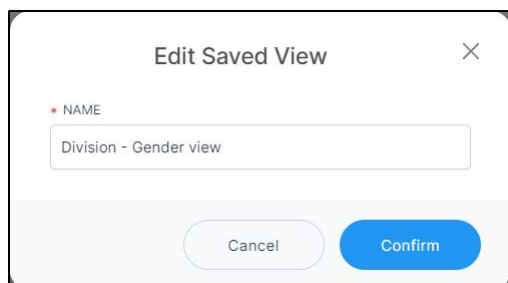

- A text input field labeled '* NAME'.
- A toggle switch labeled 'SAVE AS CATALOG WIDE'.
- A dropdown menu labeled '* SELECT FOLDER' with 'default' selected.
- A text input field labeled 'NEW FOLDER (FOLDER WILL BE CREATED UNDER SELECTED FOLDER)'.
- At the bottom, there are two buttons: 'Cancel' and 'Confirm'.

If the row or column divider is not selected, a message appears on the above window informing you so and you need to close the window and group colorways first.

3. Enter the view name, and if you are an admin user then you can select whether you want this view to be available for all catalog users,
4. Select the folder to which the view is saved, or enter the new folder name which will be created under the selected folder,
5. Click **Confirm**.

Edit saved view

To edit any of the saved views, click the edit button next to the view you want, the following window appears:

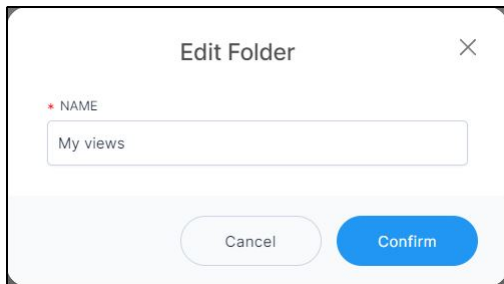

The 'Edit Saved View' dialog box is a light gray window with a close button (X) in the top right corner. It contains the following fields and controls:

- A text input field labeled '* NAME' with the text 'Division - Gender view' entered.
