

Sort colorways

You can sort colorways by attribute values, either ascending or descending, by clicking  then selecting the attribute. Sorting is configured at the catalog level. You can also select Custom sort from the menu to sort colorways based on attribute values. When this option is selected, the following window appears:

The screenshot shows a dialog box titled "Custom Sort" with a close button (X) in the top right corner. Below the title is a dropdown menu labeled "SELECT ARTICLE PROPERTY". Underneath, there are two columns: "Available Values" and "Sorted Values". Each column contains a text input field with the placeholder text "Filter the list". At the bottom of the dialog, there are two buttons: "Cancel" and "Confirm".

Select the attribute, its values are displayed in the Available values section as shown in the below example:

The image shows a 'Custom Sort' dialog box. At the top, there is a title 'Custom Sort' and a close button (X). Below the title is a dropdown menu labeled 'SELECT ARTICLE PROPERTY' with 'Division' selected. The main area is divided into two columns: 'Available Values' and 'Sorted Values'. Each column has a 'Filter the list' input field. Under 'Available Values', there are three buttons: 'apparel', 'footwear', and 'accessories'. At the bottom of the dialog, there are two buttons: 'Cancel' and 'Confirm'.

You can double-click any of the values to move it to the sorted values section and vice versa. You can also drag the values and drop them according to your preference and click **Confirm**. Based on the selected order, colorways are sorted.
