

## Manage images

You can browse for an image on your computer and add it to the slide. To do so, you can select Image from the Insert menu and browse for the image you want to add. The image is added to the slide as shown in the below example:

You can resize the image by changing the percentage or dragging its corners, move the image, and lock it to prevent changing its position using the respective icon. You can also paste images to the slide by pressing Ctrl and V.
