Next

2. Select the row label attributes, and the column label attributes, you can select up to 3,
3. Click the slider *Group by model* slider, if you want the generated frames to contain the style thumbnails and attributes,
4. Select the article attributes which you want to display,
5. Select the number of columns you want in each slide, by default it is “1”, and you can add up to “6” columns,
6. Select the size in which you want to add the images,
7. Change the font size for the horizontal and vertical axis labels, if you want by clicking the arrows,
8. Select the frame size,
9. Select the attribute based on which articles are grouped, if you want,
10. Enter the frame title, if you want,
11. Select the attribute(s) based on which articles are sorted - ascending or descending, then select the order in which you want the articles to be sorted,
12. Click the slider button if you want to group articles by model,
13. Click **Next**, the following window appears:

14. Click **Finish**, frames are generated as shown in the below example:

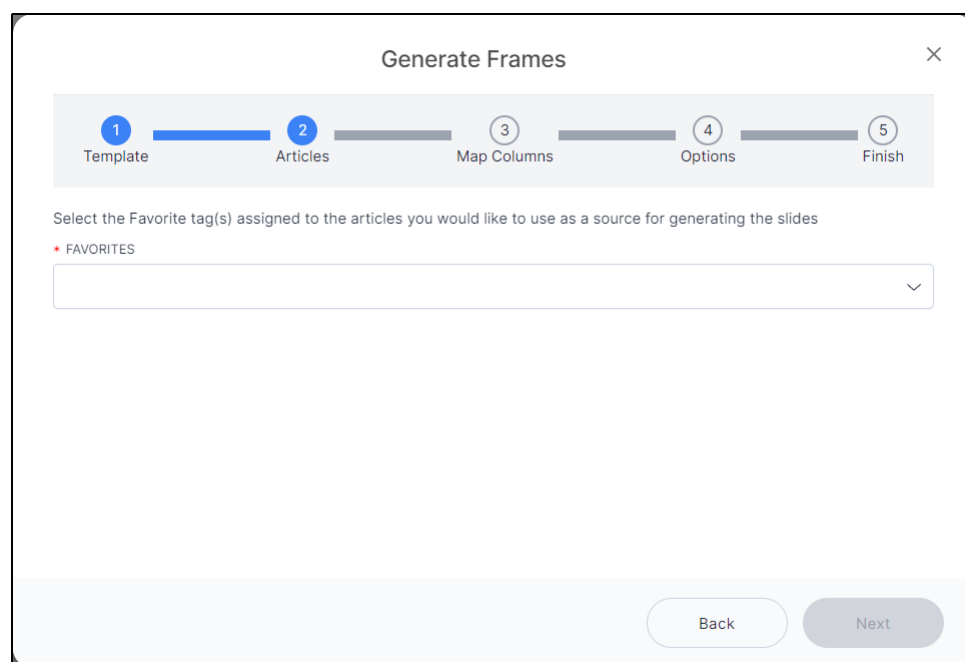

You can click any of the articles or models to view its details. Dropped articles are greyed out.

Favorites

To generate frames for your favorite articles, follow these steps:

1. Select the radio button next to (Favorites), then click **Next**, the following window appears:

The screenshot shows a dialog box titled "Generate Frames" with a close button (X) in the top right corner. At the top, there is a progress bar with five steps: 1. Template, 2. Articles, 3. Map Columns, 4. Options, and 5. Finish. Step 2, "Articles", is currently selected and highlighted in blue. Below the progress bar, the text reads: "Select the Favorite tag(s) assigned to the articles you would like to use as a source for generating the slides". Underneath this text, there is a dropdown menu with a red asterisk icon and the label "FAVORITES". The dropdown menu is currently empty, showing only a downward arrow. At the bottom of the dialog box, there are two buttons: "Back" and "Next". The "Next" button is highlighted in grey, indicating it is the active button.

2. Select the favorite tag you want then repeat the steps mentioned above for generating frames for Full Catalog,
3. Click **Next** then **Finish**, frames with your favorite articles are generated.

List of articles

To generate frames using a list of articles, follow these steps:
