Update allocation group

Note:

• You can only edit an active allocation group.

You can edit the articles for any of the allocation groups created previously. To do so, follow these steps:

1. Select "Edit Record" from the Actions menu or view the allocation group then click the **Edit** button, the following window appears:

You cannot change the group name. The window lists the articles added to the allocation group and you can add new articles or delete any of them.

- 2. Make the changes you want on the articles list,
- 3. Click Save.
