Add catalog model
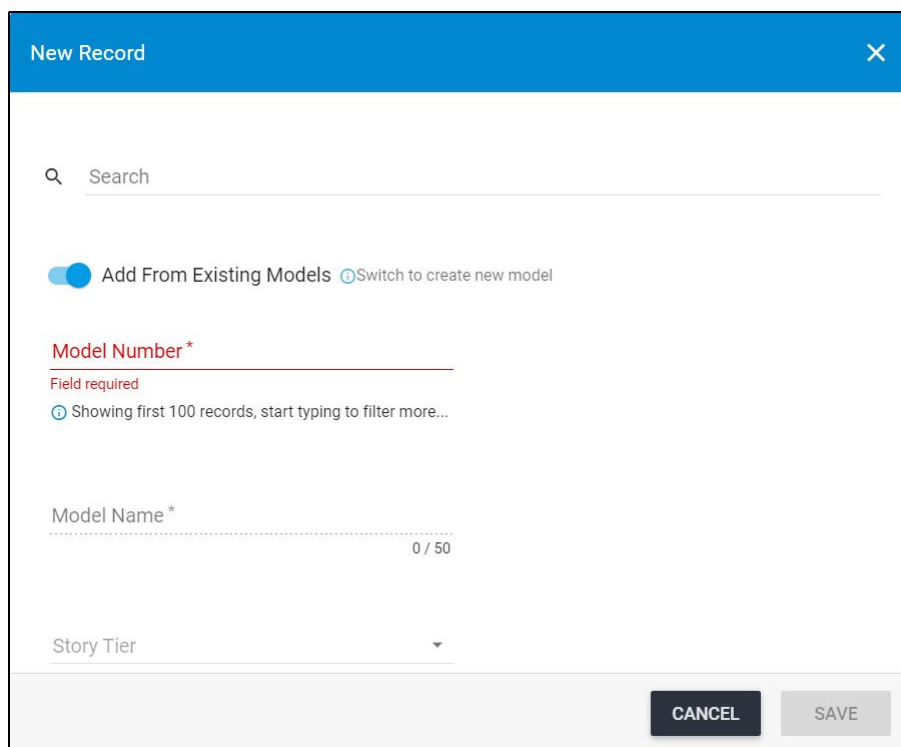

To add a catalog model, follow these steps:

1. Click the add button, the following window appears:

The slider button that enables you to add catalog models from existing seller models is activated by default and you can turn it off to add a new model.

2. Select the model number if you are adding a catalog model from the list of seller model numbers or enter the new catalog model number if the slider is off,
3. Enter the model name,
4. Fill the attribute values for the model. If any of the attributes has a default value, this value is prefilled and can be updated,
5. Click **Save** to add the model and close the window or **Save and new** to add it and open a new window.

Note:

- If the seller for which the catalog model is added has the "Automatic colorway

numbering" slider enabled, you cannot enter the model number.
