

# Catalog attributes

To view the attributes assigned to the catalog, view the catalog you want then go to the **Attributes** tab, the following page appears:

Attribute Name	System Name	Editable	Updated Date	Attribute Type Name	Is Re	Actions
<input type="checkbox"/> End Use	EndUse	<span style="color: green;">●</span> True	Aug 2, 2022	nvarchar	<span style="color: red;">●</span> Fa	⋮
<input type="checkbox"/> Fit Type	FitType	<span style="color: red;">●</span> False	Aug 2, 2022	nvarchar	<span style="color: red;">●</span> Fa	⋮
<input type="checkbox"/> Gender	Gender	<span style="color: green;">●</span> True	Aug 2, 2022	nvarchar	<span style="color: red;">●</span> Fa	⋮
<input type="checkbox"/> Block Images	BlockImages	<span style="color: green;">●</span> True	Sep 22, 2022	nvarchar	<span style="color: red;">●</span> Fa	⋮

The catalog attributes are listed, for each one, the system name, whether the attribute is editable, the updated date, attribute type name, and whether the attribute is required or not, are listed.

You can update the sort order for attributes which specifies the sequence in which attributes are displayed. To do so, select “Update sorting” from the Actions menu next to the attribute, or select the checkbox(es) next to the attribute then click the Update sorting button, the following window appears:

**Edit Record** ✕

Attribute Name\*  
Block Images 12 / 200

Sort Order  
0

**CANCEL** **SAVE**

Enter the sort order then click **Save**.
