

Import retail windows

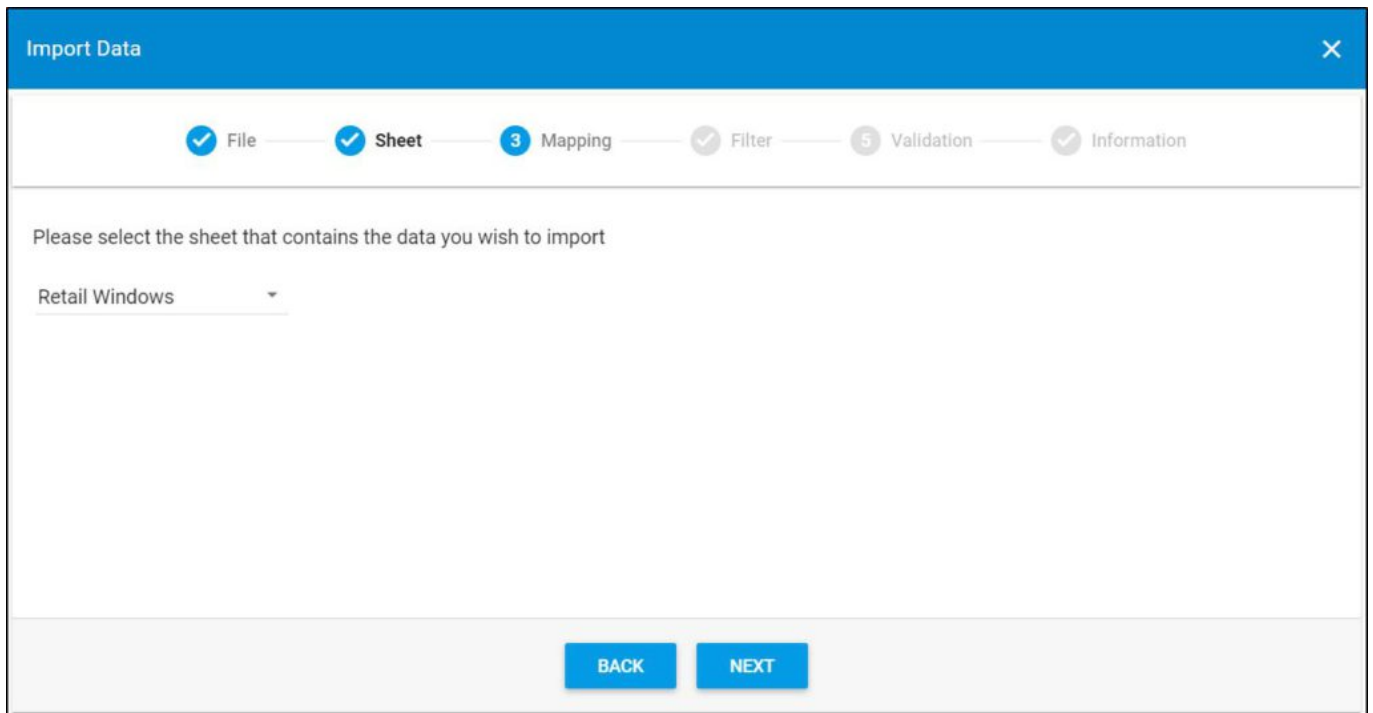

To import a file with retail windows, follow these steps:

1. Click the **Import** button, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1 File (selected with a blue circle), 2 Sheet, 3 Mapping, 4 Filter (checked with a grey checkmark), 5 Validation, and 6 Information (checked with a grey checkmark). Below the progress bar, there are two radio button options: "Last Used File" (unselected) and "New File" (selected with a blue circle). Below these options is a text input field labeled "Filename:" containing the text "[none]". To the right of the input field is a button labeled "SELECT...". At the bottom of the window, there are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field,
4. Click **Next**, the following window appears:

You can click **Back** to return to the previous window.

5. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
6. Click **Next**, the following window appears:

Import Data
