

# Model level attributes

Through this tab, you can add catalog attributes as model level attributes. Values for those attributes are reflected on all articles with the same model number. **Model level attributes** tab appears as shown below:

0 of 3 Selected

Id	Attribute Id	Attribute Name	System Name	Attribute Type Id	Attribute Type Name
<input type="checkbox"/> 8	2	Gender	gender_tw	1	nvarchar
<input type="checkbox"/> 9	3	Category	category_tw	1	nvarchar
<input type="checkbox"/> 10	11	Division	Division	1	nvarchar

The page lists the attributes which are assigned as model level attributes. For each one, the attribute Id, system name, attribute type Id and name, the user who updated the attribute, and the updated date are displayed.

To manage model level attributes, click  , the following window appears:

New Record

Attribute Id

Gender ×

Category ×

Division ×
