

Restrict attributes

Through this page, you can specify which user roles are not allowed to view or update certain attributes. Go to **Restrict attributes**, the following page appears:

The screenshot shows a web application interface with a navigation bar at the top containing the following tabs: Catalog, Attributes, Restrict Attributes (active), Configurations, Delivery Dates, Retail Windows, Restrict Retail Windows, Price Group, and Segments. Below the navigation bar is a toolbar with a selection icon, a refresh icon, a trash icon, and a blue button labeled '0 of 1 Selected'. The main content area is a table with the following columns: Role Id, Role Name, Account Type Id, Account Type, and Actions. The table contains one row with the following data: Role Id: 31, Role Name: Read Only Buyer, Account Type Id: 3, Account Type: Buyer. A red circular button with a white plus sign is located in the bottom right corner of the table area.

Role Id	Role Name	Account Type Id	Account Type	Actions
31	Read Only Buyer	3	Buyer	

Roles are listed, for each one the name, account type Id, account type are displayed. You can select View attributes from the Actions menu next to the role to view them as shown in the below example:

Attributes			
Attribute System Name	Attribute Name	Not Editable	Not Viewable
<input type="checkbox"/> Dropped	Marked for Drop	<input checked="" type="checkbox"/> True	<input type="checkbox"/> False

The attribute system name, name, and whether it is editable or viewable are displayed. The following sections discuss how to manage restricted attributes.
