

Restrict Segmentations

Through this tab, you can restrict segmentations for a specific role and specify whether you want to allow this role users to view or edit segmentations. Go to **Restrict segmentations** tab, the following page appears:

<div><div><</div><div>Restrict Segmentations</div><div>Size Scales</div><div>Stock Definition</div><div>Tree</div><div>Attribute Vetting List</div><div>Seller Users</div><div>Style Level Attributes</div><div>Request Attributes</div><div>></div></div>				
<div><div><div><input type="checkbox"/></div><div></div><div></div><div>0 of 1 Selected</div><div><div></div><div></div></div></div></div>				
Role Id	Role Name	Account Type Id	Account Type	Actions
<input type="checkbox"/> 3	Inputter	3	Buyer	<div><div></div><div></div></div>

Roles are listed, along with the account type Id, and account type. To view the restricted segmentation, select View segmentations from the Actions menu next to it, the following window appears:

The screenshot shows a window titled "Segmentations" with a blue header bar. Below the header is a toolbar with a selection checkbox, a refresh icon, a status bar indicating "0 of 1 Selected", a menu icon (three dots), and a refresh icon. The main content area contains a table with the following data:

Id ↕	Name ↕	Not Editable ↕	Not Viewable ↕
<input type="checkbox"/> 8,850	BRAND HOUSE	<input checked="" type="checkbox"/> True	<input checked="" type="checkbox"/> True

Segmentations are listed along with their Id, and whether the segmentation is editable or viewable.

The following sections discuss how to manage restricting segmentations.
