

Restrict Segmentations

Through this tab, you can restrict segmentations for a specific role and specify whether you want to allow this role users to view or edit segmentations. Go to **Restrict segmentations** tab, the following page appears:

Role Id	Role Name	Account Type Id	Account Type	Actions
3	Inputter	3	Buyer	

Roles are listed, along with the account type Id, and account type. To view the restricted segmentation, select View segmentations from the Actions menu next to it, the following window appears:

The screenshot shows a window titled "Segmentations" with a blue header and a close button. Below the header is a toolbar with a selection checkbox, a refresh icon, a "0 of 1 Selected" status indicator, a menu icon, and a refresh icon. The main content is a table with the following columns: "Id", "Name", "Not Editable", and "Not Viewable". Each column has a dropdown arrow. The table contains one row with the following data:

Id	Name	Not Editable	Not Viewable
8,850	BRAND HOUSE	True	True

Segmentations are listed along with their Id, and whether the segmentation is editable or viewable.

The following sections discuss how to manage restricting segmentations.
