

Retail windows

Retail windows can be configured at the catalog level then set to articles. Retail windows can have intro month and exit month in addition to the shipment start date and shipment end day. A criteria attribute has to be defined for the retail window to specify which retail window can be assigned to which article based on the attribute value.

Go to **Retail windows**, the following page appears:

Shipment Start Date	Shipment End Date	Status	Updated Date	Actions
<input type="checkbox"/> Jan 1, 2024	Aug 5, 2024	Inactive	Feb 9, 2024	⋮
<input type="checkbox"/> Apr 1, 2024	Jun 14, 2024	Inactive	Feb 8, 2024	⋮
<input type="checkbox"/> Jan 1, 2024	Nov 3, 2024	Active	Feb 2, 2024	⋮
<input type="checkbox"/> Jan 1, 2024	Nov 12, 2024	Active	Feb 2, 2024	⋮
<input type="checkbox"/> Jan 1, 2024	Sep 1, 2024	Active	Feb 2, 2024	⋮
<input type="checkbox"/> Jan 1, 2024	Dec 1, 2024	Active	Feb 2, 2024	⋮
<input type="checkbox"/> Jan 29, 2025	Jul 24, 2025	Active	Feb 2, 2024	⋮
<input type="checkbox"/> Jan 1, 2023	Mar 1, 2023	Active	Jan 31, 2024	⋮
<input type="checkbox"/> Feb 2, 2024	Jan 3, 2025	Active	Dec 27, 2023	⋮
<input type="checkbox"/> Feb 1, 2024	Jan 3, 2025	Active	Dec 27, 2023	⋮
<input type="checkbox"/> Jan 2, 2023	Mar 1, 2023	Active	Dec 27, 2023	⋮

Retail windows for the selected catalog are displayed, for each one the retail exit month, shipment start date, shipment end date, criteria attribute value, status, period, and updated date are listed. The following sections discuss how to manage retail windows.
