

## Import collections

You can import a list to create collections and add articles to them at the same time. You can specify the collection name, the path which specifies the hierarchy of collection folders, and the article number to be assigned to each collection. This process saves the time needed to add collections and assign articles to them individually. You can also import collection folders along with their criteria.

To import a file with collections, follow these steps:

1. Click the **Import** button, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1. File (active, blue circle), 2. Sheet (grey circle), 3. Mapping (grey circle), 4. Filter (grey circle with checkmark), 5. Validation (grey circle), and 6. Information (grey circle with checkmark). Below the progress bar, there are two radio buttons: "Last Used File" (unselected) and "New File" (selected, blue circle). Below the radio buttons is a text input field labeled "Filename:" with the value "[none]" and a "SELECT..." button to its right. At the bottom of the window are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field,
4. Click **Next**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar. Below the header is a progress bar with six steps: "File" (checked), "Sheet" (checked), "3 Mapping" (active), "Filter" (checked), "5 Validation" (checked), and "Information" (checked). The main area contains the text "Please select the sheet that contains the data you wish to import" and a dropdown menu labeled "Collections". At the bottom, there are two blue buttons: "BACK" and "NEXT".

You can click **Back** to return to the previous window.

5. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
6. Click **Next**, the following window appears:

7. Select the column of the sheet that matches each field, columns are different depending on the collection type of the selected catalog, whether it is Article or Criteria,
8. Click **Next**, the following window appears:

The screenshot shows a 'Import Data' window with a blue header bar containing the title and a close button. Below the header is a progress bar with six steps: 'File', 'Sheet', 'Mapping', 'Filter', 'Validation', and 'Information'. The 'Validation' step is currently active, indicated by a blue circle with the number '5'. The main area of the window contains the question 'Would you like to import all the rows in the sheet or only the rows that match a specific criteria?'. There are two radio button options: 'Import All Rows' (which is selected) and 'Import Only the Rows that match the following criteria:'. At the bottom of the window, there are two blue buttons labeled 'BACK' and 'NEXT'.
