Assign segmentation to article
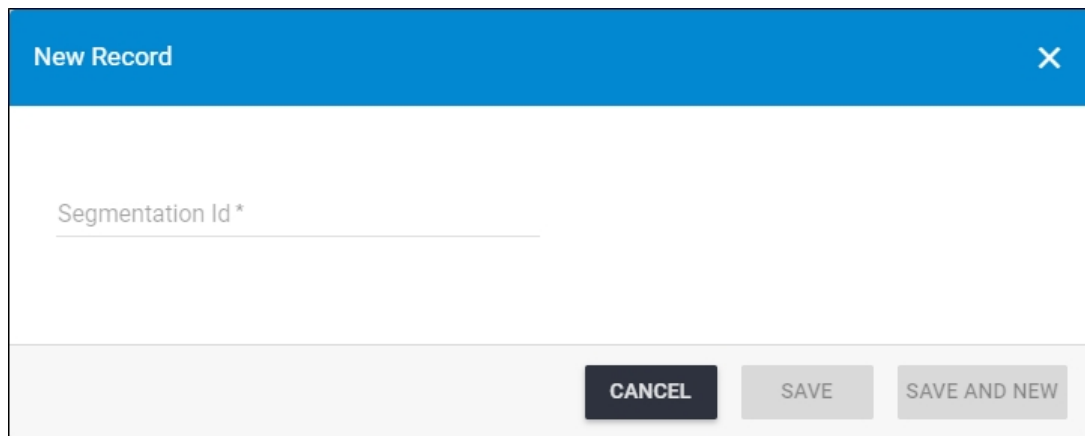

To assign a segmentation to an article, follow these steps:

1. Click , the following window appears:

You can also assign a segmentation by selecting "Create Segmentation" from the Actions menu next to article.

2. Click the "Segmentation Id" field then select the segmentation you want,
3. Click **Save** to add the segmentation and close the window, or **Save and New** to add it and open a new window. The segmentation is added to the list.

You can also assign a segmentation to multiple articles as mentioned in "Set Segmentation to Articles".

Note:

- This button is not available if the selected catalog is a child catalog with the "Segmentation Mirroring" option activated.
