

## Colorway details

You can view and update the colorway details and assign delivery dates, images, resources to colorways. You can also view any changes that were done on the colorway status or number.

To view the colorway details, click its record or select “View Record” from the Actions menu next to it, its details are displayed as shown below:

The screenshot shows a web interface for viewing colorway details. At the top, there are navigation tabs: Colorway (selected), Delivery Dates, Resources, Images, Sizes, Prices, Segmentation, History, and Related. Below the tabs, the colorway ID '1383663-S04' is displayed with a green 'Active' status indicator. To the right of the ID are icons for delete, refresh, print, and share. The main content area is divided into two columns of key-value pairs:

Colorway Id	986,362	Colorway Number	1383663-S04
Style Id	247,330	Style Number	1383663
Style Name	Tech Tank Twist&	Color Code	
Primary Color	(blank)	Hex Code	
Replacement Number	(blank)	Parent Replacement Number	(blank)
Status	Active	Drop Reason	(blank)
Parent Status	Active	Locked	False

At the bottom right of the page, there is a red circular button with a white pencil icon, indicating an edit function.

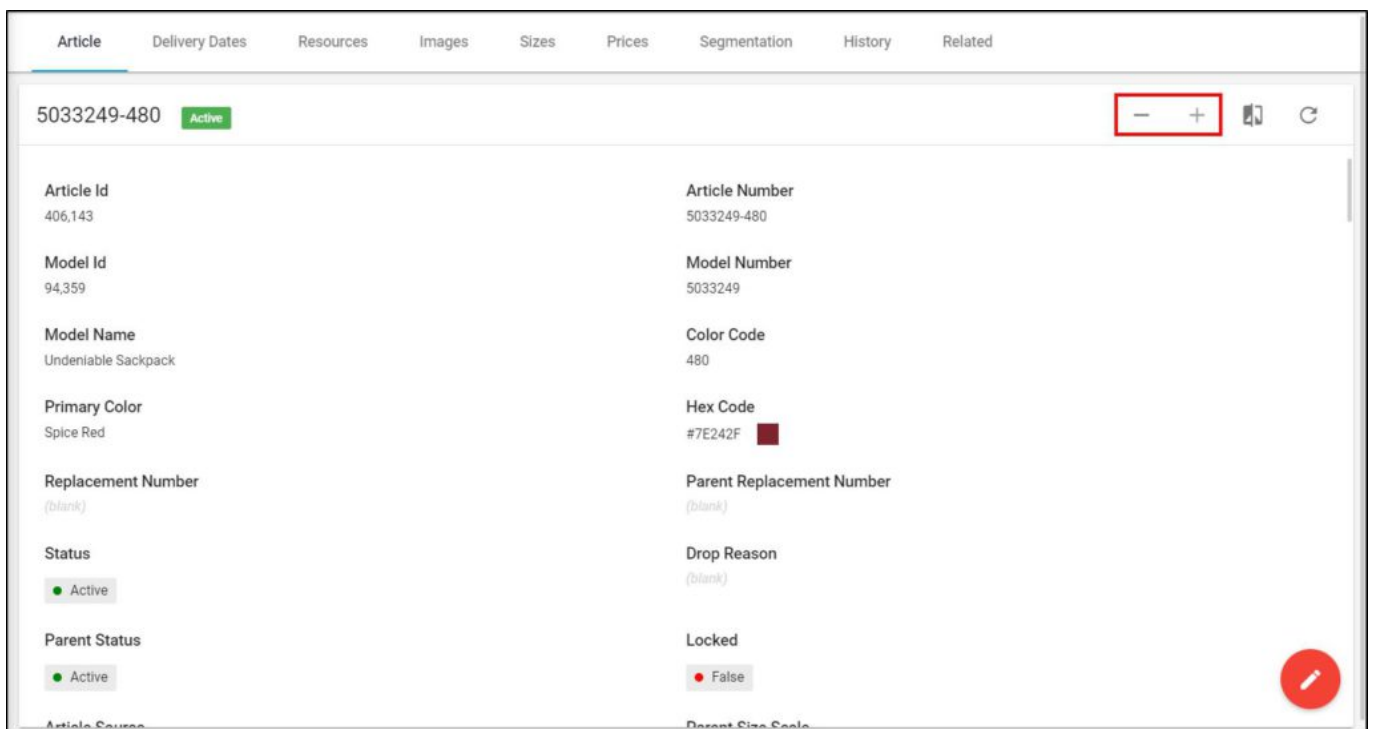

This tab displays the colorway details such as its number, style number, and replacement number in case there is another colorway that replaces this one, and whether the article is locked or not, etc. It also lists the attributes and their values, the user who created and updated the colorway and the creation and update dates. The sequence in which attributes are displayed is specified at the catalog level. This is managed by the Traxix Support team.

The colorway creation, deactivation and reactivation dates are also displayed. If the colorway is New, only the created date field will show the date, while if the colorway is deactivated, the drop date value is shown in the Drop date field, and if the colorway is reactivated, the reactivation date field will show the respective date. You can edit the article

details by clicking  .

For inactive colorways, a few tabs are activated, such as delivery dates, sizes, history, and related. The other tabs cannot be viewed or activated.
