

Set prices (bulk) by licensee model number

Note:

- This option is only available if Price by style flag is enabled for the catalog.

Through this option, you can upload a file with multiple prices to assign to licensee models. At least one price group of the selected catalog should be mapped to licensee style numbers. To import a file with prices, follow these steps:

1. Click **Set prices (bulk) by licensee model number** button, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1. File (active, blue circle), 2. Sheet (grey circle), 3. Mapping (grey circle), 4. Filter (grey circle with a checkmark), 5. Validation (grey circle), and 6. Information (grey circle with a checkmark). The main content area has two radio buttons: "Last Used File" (unselected) and "New File" (selected, blue circle). Below the radio buttons is a text field labeled "Filename:" with the value "[none]" and a "SELECT..." button to its right. At the bottom of the window are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

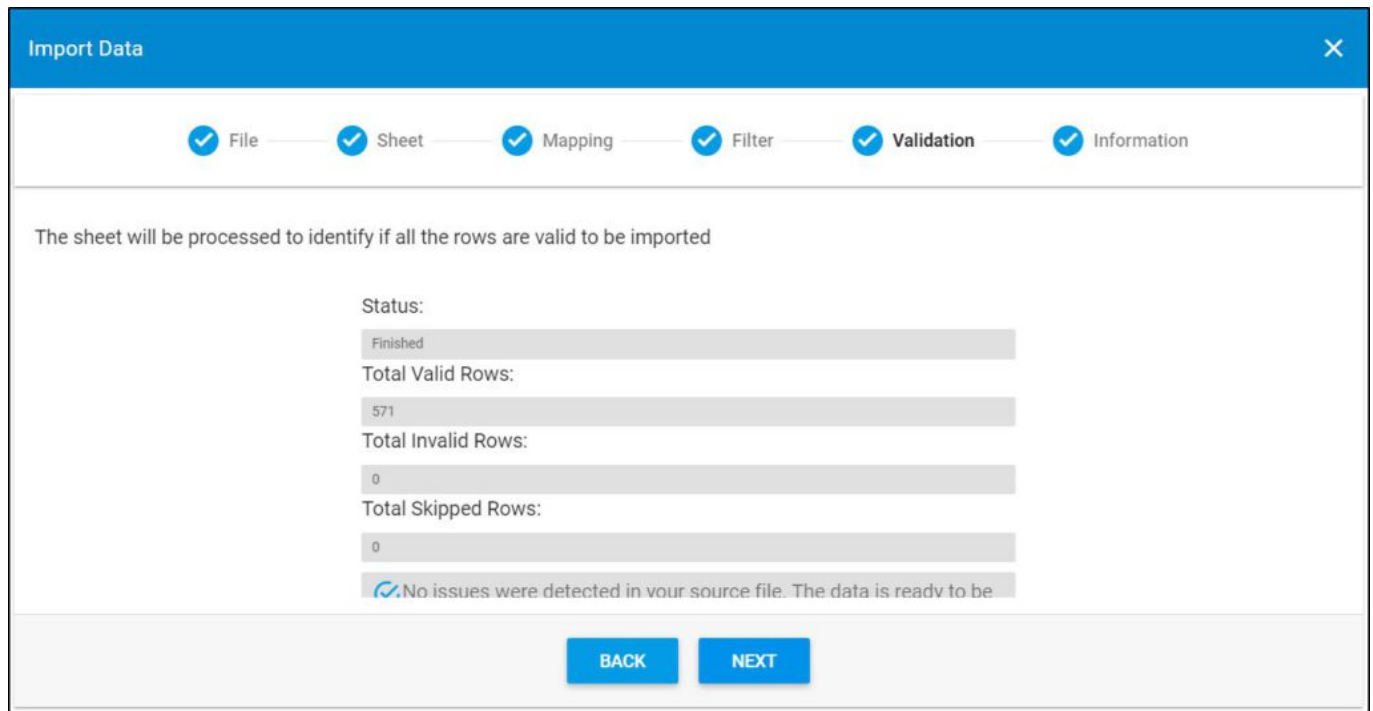

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: "File", "Sheet", "Mapping", "Filter", "Validation", and "Information". The "Mapping" step is the current active step, indicated by a blue circle with the number "3". The other steps are marked with checkmarks. Below the progress bar, the text "Please select the sheet that contains the data you wish to import" is displayed. Underneath this text is a dropdown menu with the word "Prices" selected. At the bottom of the window, there are two blue buttons: "BACK" and "NEXT".

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:

certain criteria, a validation window appears informing you if records are valid or not, if not, you need to fix the sheet then import the file again,

8. Click **Next**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar. Below the header is a progress bar with six steps: File, Sheet, Mapping, Filter, Validation, and Information. The "Validation" step is currently selected and highlighted. The main content area contains the text "The sheet will be processed to identify if all the rows are valid to be imported". Below this, there are several input fields for validation results: "Status:" with "Finished", "Total Valid Rows:" with "571", "Total Invalid Rows:" with "0", and "Total Skipped Rows:" with "0". At the bottom of the main content area, there is a message: "No issues were detected in your source file. The data is ready to be". At the very bottom of the window, there are two buttons: "BACK" and "NEXT".
