

Set segmentation to multiple articles

You can assign one or more segmentations to a group of articles by following these steps:

1. Click the checkbox(es) next to the articles you want,
2. Click , the following window appears:

The screenshot shows a dialog box titled "Edit Article Segmentation" with a close button (X) in the top right corner. The dialog contains the following elements:

- A toggle switch labeled "Open" which is currently turned on.
- Two segmentation options, each consisting of an unchecked checkbox and a toggle switch:
 - "Segmentation-1": The checkbox is unchecked, and the toggle switch is turned on.
 - "Segmentation-2": The checkbox is unchecked, and the toggle switch is turned off.
- At the bottom right, there are two buttons: "CANCEL" (dark grey) and "SAVE" (light grey).

3. Click the checkbox next to the segmentation you want to assign, unchecked checkboxes will remain unchanged,
4. Click the slider button next to the segmentation you want to assign to the article(s), the selected segmentation will be marked with "Yes", while the other segmentations will be marked with "No". If you click the slider button next to Open, all segmentations are assigned,
5. Click **Save**, a progress window is displayed and segmentations are updated.

For more information on managing segmentations, refer to "[Segmentation](#)".
