Shift delivery dates

Through this feature, you can import a file to replace old delivery dates linked to articles with new delivery dates defined for the catalog. This will also replace delivery dates in order lines containing the affected articles.

To import new delivery dates, make sure to have the articles listed in an Excel sheet with the following columns: Article Number, Current Delivery Date, New Delivery Date as shown in the below example:

	A	В	С	D	E	
1	Article Number	Current Delivery Date	New Delivery Date			
2	101010	2/1/2018	3/1/2018			
3	112211	2/1/2018	3/1/2018			
4	113311	1/1/2018	3/1/2018			
5	114411	2/1/2018	3/1/2018			
6	115511	2/1/2018	3/1/2018			
7	118811	1/1/2018	3/1/2018			
8	119911	1/1/2018	3/1/2018			
9	121212	1/1/2018	3/1/2018			
10	133112	1/1/2018	3/1/2018			
11	166121	2/1/2018	3/1/2018			
12						-
	< → De	liveryDates (+)	: 4		Þ	-

Notes:

- The new delivery date should be defined for the catalog and it cannot be a value that does not exist for this catalog.
- The date format should be MM/DD/YYYY.
- When shifting a delivery date for an article that has more than one date, you can use any of the dates as the Current Delivery Date in the Excel sheet.
- You cannot use an old delivery date that was assigned to an article and then deactivated, as this could affect orders containing those order lines.
- Delivery dates will not be shifted in order lines that are already consolidated.

To import a file with new delivery dates, follow these steps:

1. Click ^{the} to import the delivery dates file, the following window appears:

Import Data		×
1 File	2 Sheet — 3 Mapping — S Filter — 5 Validation — S I	nformation
Last Used FileNew File		
Filename: [none]		SELECT
	BACK NEXT	

- 2. Click **Select** to browse for the file you want to import,
- 3. Select the file then click **Open**, the name of the file you selected appears in its field,
- 4. Click **Next**, the following window appears:

Import Data					×
V File	Sheet	3 Mapping	Filter —	— 5 Validation —	🕑 Information
Please select the sh	ieet that contains t	he data you wish to import:			
DeliveryDates	Ŧ				
		BACK	NEXT		

You can click **Back** to return to the previous window.

- 5. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
- 6. Click **Next**, the following window appears:

Import Data			×
File — Sheet	🕑 Марр	ing Filter 5 Validation	Information
Please select the columns in your sheet	t that match each of	the following fields. All fields marked with a * are mandat Article Number *	tory and must be mapped before continuing.
Article Number *	=	Article Number	×
		Current Delivery Date *	
Current Delivery Date *	=	Current Delivery Date	×
		New Delivery Date *	
New Delivery Date *	=	New Delivery Date	×
		BACK NEXT	

7. Select the column of the sheet that matches each field, then click **Next**, the following window appears:

Import Data	ς
Sheet — Sheet — Mapping — Silter 5 Validation — Silter Silter	
 Would you like to import all the rows in the sheet or only the rows that match a specific criteria? Import All Rows Import Only the Rows that match the following criteria: 	
BACK NEXT	

- 8. Click the radio button next to the import method, either all rows or rows that match certain criteria, a validation window appears informing you if records are valid or not, if not, you need to fix the sheet then import the file again,
- 9. Click **Next**, the following window appears:

Import Data		×
🖌 File 🛛 🖉 S	heet 🧭 Mapping 🤡 Filter 🔗 Validation 🔗 Information	Î
The sheet will be processed to ident	fy if all the rows are valid to be imported	
	Status:	
	Finished Total Valid Rows:	
	10
