

Overview

This page provides an overview of the catalog information such as the price groups, segmentations, linked customers, number of active and inactive articles, sizes, and images etc.

Select the catalog you want then click **Overview** from the left side menu, the following page appears:

The page provides a visual presentation of statistical information for the selected catalog. The first section displays the number of active price groups of the total number of price groups. The same for segmentations, delivery dates and linked customers. The second section displays articles information such as the number of articles without prices, sizes, and images, etc.

The third section displays the number of active prices, sizes, collections, and images of the total number of each.

You can refresh any of the displayed information by clicking the refresh button.
