

Prices

T1 enables you to manage prices either by the colorway code (article number) or the style code (model number) depending on the catalog settings. Prices can be managed for individual records or imported into the system as an Excel sheet to facilitate managing a bulk of prices.

You can select whether you want to view the prices in tabular or linear view using the following menu:

Select the catalog you want then click **Prices**, if you select tabular view, the following page appears:

A screenshot of a table interface showing a list of articles. The table has columns for Article Number, Article Name, Wholesale Price (AED), Retail Price (AED), Article Lock Status, and Actions. The table is sorted by Article Number. The first row is selected. The table is displayed in a tabular view.

Article Number ^	Article Name ↕	Wholesale Price (AED) ↕	Retail Price (AED) ↕	Article Lock Status ↕	Actions	
<input type="checkbox"/>	101010	Training Shoes	550	600	False	⋮
<input type="checkbox"/>	112211	T-shirt	220	250	True	⋮
<input type="checkbox"/>	113311	Shoes	400	420	False	⋮
<input type="checkbox"/>	114411	Shoes	580	600	False	⋮
<input type="checkbox"/>	115511	Sweatshirt	350	380	True	⋮
<input type="checkbox"/>	117711	Sweatshirt	240	250	False	⋮
<input type="checkbox"/>	118811	T-shirt	120	150	False	⋮
<input type="checkbox"/>	119911	Running Shoes	500	520	False	⋮
<input type="checkbox"/>	121212	T-shirt	200	220	False	⋮
<input type="checkbox"/>	133112	Sweatshirt	350	380	False	⋮
<input type="checkbox"/>	166121	Sweatshirt	350	380	False	⋮

The page lists prices defined for articles of the selected catalog depending on the price groups of the catalog. For each article, its number and name, wholesale price, retail price and article lock status are displayed according to the columns you have chosen to show using the Column Chooser. You can also view article attributes.

If you select linear view, the page appears as shown below:

Article Id	Article Number	Article Name	Model Number	Price Group Id	Price	Updated Date	Actions
<input type="checkbox"/> 95	166121	Sweatshirt	1221	Wholesale	300	Nov 21, 2019	⋮
<input type="checkbox"/> 98	121212	T-shirt	1331	Wholesale	120	Nov 21, 2019	⋮
<input type="checkbox"/> 228,427	118811	Running Shoes	1181	Wholesale	150	Nov 21, 2019	⋮
<input type="checkbox"/> 92	119911	Running Shoes	1991	Wholesale	400	Nov 21, 2019	⋮
<input type="checkbox"/> 94	117711	Shoes	1171	Retail	50	Nov 21, 2019	⋮
<input type="checkbox"/> 94	117711	Shoes	1171	Wholesale	40	Nov 21, 2019	⋮
<input type="checkbox"/> 96	115511	Sweatshirt	1151	Wholesale	350	Nov 21, 2019	⋮
<input type="checkbox"/> 97	114411	T-shirt	1441	Wholesale	400	Nov 21, 2019	⋮
<input type="checkbox"/> 90	113311	Shoes	1331	Wholesale	20	Nov 21, 2019	⋮
<input type="checkbox"/> 90	113311	Shoes	1331	Retail	10	Nov 21, 2019	⋮

The page lists the articles, for each one the article number, article name, model number, price group Id, price, and the update date. Each price linked to an article is displayed in a separate row.

Notes:

- You can only update prices for “Editable” price groups as in the below example:

Edit Record ✕

Name *	Description
Retail Price 12 / 50	AED 3 / 100
Currency *	<input checked="" type="checkbox"/> Editable
United Arab Emirates Dirham	

CANCEL SAVE

- Depending on the catalog settings, if the *Apply Price by Style* slider button is activated, then prices are managed by the style code (model number) instead of the colorway code (article number).
- For inherited catalogs, if the “Price Cascading” flag is on, then prices are automatically cascaded from master to inherited catalog.
- You can view article attributes through the column chooser. For more information, refer to [“Column chooser and pre-defined columns”](#).

You can view price details, update prices, and import prices per article number or model number as discussed in the coming sections.
