

Import saved views

You can import a file with saved views instead of adding them individually which will save you time and effort. The saved view name is mandatory. To import a file with saved views, follow these steps:

1. Click the **Import** button, the following window appears:

The screenshot shows a dialog box titled "Import Data" with a blue header and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1 File (active), 2 Sheet, 3 Mapping, 4 Filter (checked), 5 Validation, and 6 Information (checked). The main area contains two radio buttons: "Last Used File" (unselected) and "New File" (selected). Below the radio buttons is a text input field labeled "Filename:" with the placeholder text "[none]" and a "SELECT..." button to its right. At the bottom of the dialog are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

Import Data

File Sheet **3** Mapping Filter Validation Information

Please select the sheet that contains the data you wish to import

Saved Views

BACK NEXT

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:

Import Data ✕

✓ File — ✓ Sheet — ✓ Mapping — ✓ Filter — **5** Validation — ✓ Information

Please select the columns in your sheet that match each of the following fields. All fields marked with a * are mandatory and must be mapped before continuing.

🔍 Search

Name*	=	Name* Name ✕
Is Catalog Level	=	Is Catalog Level Is Catalog Level ✕

BACK **NEXT**

6. Select the column of the sheet that matches each field, you can search for the field you want using the search field, then click **Next**, the following window appears:

The screenshot shows a dialog box titled "Import Data" with a close button (X) in the top right corner. Below the title bar is a progress indicator with six steps: "File", "Sheet", "Mapping", "Filter", "Validation", and "Information". The "Validation" step is highlighted with a blue circle containing the number "5". Below the progress indicator, the text asks: "Would you like to import all the rows in the sheet or only the rows that match a specific criteria?". There are two radio button options: "Import All Rows" (which is selected) and "Import Only the Rows that match the following criteria:". At the bottom of the dialog box are two buttons: "BACK" and "NEXT".

7. Click the radio button next to the import method, either all rows or rows that match certain criteria, a validation window appears informing you if records are valid or not, if not, you need to fix the sheet then import the file again,
8. Click **Next**, the following window appears:

Import Data ×

✓ File — ✓ Sheet — ✓ Mapping — ✓ Filter — ✓ **Validation** — ✓ Information

The sheet will be processed to identify if all the rows are valid to be imported

Status:
Finished
