

Import configurations

To import a list of configurations, you need to include the configuration name and value in an Excel sheet. To do so, follow these steps:

1. Click the **Import** button, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1. File (active, blue circle), 2. Sheet (grey circle), 3. Mapping (grey circle), 4. Filter (grey circle with a checkmark), 5. Validation (grey circle), and 6. Information (grey circle with a checkmark). The main area of the window has two radio buttons: "Last Used File" (unselected) and "New File" (selected, blue circle). Below these is a text field labeled "Filename:" with the placeholder text "[none]" and a "SELECT..." button to its right. At the bottom of the window are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar containing a close button (X). Below the header is a progress bar with six steps: "File" (checked), "Sheet" (checked), "Mapping" (active, highlighted with a blue circle and the number 3), "Filter" (checked), "Validation" (checked), and "Information" (checked). The main area of the window contains the text "Please select the sheet that contains the data you wish to import" and a dropdown menu currently showing "Configurations". At the bottom of the window are two blue buttons labeled "BACK" and "NEXT".

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:

Import Data [X]

☒ File
 ☒ Sheet
 ☒ Mapping
 ☒ Filter
 5 Validation
 ☒ Information

Please select the columns in your sheet that match each of the following fields. All fields marked with a * are mandatory and must be mapped before continuing.

🔍 Search

Name*	=	Name* Name [X]
Value*	=	Value* Value [X]

6. Select the column of the sheet that matches each field, you can search for the field you want using the search field, then click **Next**, the following window appears:

Import Data [X]

☒ File
 ☒ Sheet
 ☒ Mapping
 ☒ Filter
 5 Validation
 ☒ Information

Would you like to import all the rows in the sheet or only the rows that match a specific criteria?

☒ Import All Rows
☐ Import Only the Rows that match the following criteria:

7. Click the radio button next to the import method, either all rows or rows that match

certain criteria, a validation window appears informing you if records are valid or not, if not, you need to fix the sheet then import the file again,

8. Click **Next**, the following window appears:

The screenshot shows a software window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: File, Sheet, Mapping, Filter, Validation, and Information. Each step is preceded by a blue checkmark icon, and the "Validation" step is currently selected. The main content area of the window contains the text "The sheet will be processed to identify if all the rows are valid to be imported". Below this text are four labels with corresponding input fields: "Status:" with a dropdown menu showing "Finished", "Total Valid Rows:" with a text field containing "2", "Total Invalid Rows:" with a text field containing "0", and "Total Skipped Rows:" with a text field containing "0". At the bottom of the main content area, there is a blue checkmark icon followed by the text "No issues were detected in your source file. The data is ready to be". At the very bottom of the window, there are two blue buttons labeled "BACK" and "NEXT".
