

Import seller customers

You can import a file with customers instead of adding them individually which will save you time and effort. The customer number is a mandatory column. To import a file with seller customers, follow these steps:

1. Click the **Import** button, the following window appears:

The screenshot shows a dialog box titled "Import Data" with a close button (X) in the top right corner. Below the title bar is a progress indicator with six steps: 1 File (selected with a blue circle), 2 Sheet, 3 Mapping, 4 Filter (checked with a grey checkmark), 5 Validation, and 6 Information (checked with a grey checkmark). The main content area contains two radio buttons: "Last Used File" (unselected) and "New File" (selected with a blue circle). Below the radio buttons is a text field labeled "Filename:" containing the text "[none]" and a "SELECT..." button. At the bottom of the dialog are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

Import Data

File Sheet 3 Mapping Filter 5 Validation Information

Please select the sheet that contains the data you wish to import

seller customers

BACK NEXT

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:

Import Data ✕

✓ File — ✓ Sheet — ✓ Mapping — ✓ Filter — 5 Validation — ✓ Information

Please select the columns in your sheet that match each of the following fields. All fields marked with a * are mandatory and must be mapped before continuing.
