

# Sellers

Through this module, you can manage seller accounts and add their details such as the seller's address, details, and organization, etc. You can also specify whether to allow seasonless attributes, order type, and whether confirming orders is allowed. Click **Sellers** from the left menu, the following page appears:

The screenshot displays a web application interface for managing sellers. On the left is a dark sidebar menu with the 'Sellers' option highlighted in blue. The main content area features a table with columns for Account Name, Domain, Country, City, Status, Updated, and Actions. There are four rows of seller data, each with a checkbox for selection. A red circular button with a white plus sign is located in the bottom right corner of the table area.

Account Name	Domain	Country	City	Status	Updated	Actions
<input type="checkbox"/> Global seller	globalseller.com	United Arab Emirates	Dubai	Active	Jun 7, 2022	⋮
<input type="checkbox"/> Seller 2	trasix.com	Jordan	Amman	Active	Jun 7, 2022	⋮
<input type="checkbox"/> Emerging Market	trasix.com	United Arab Emirates	Dubai	Active	Jul 2, 2020	⋮
<input type="checkbox"/> Seller 1	trasix.com	Netherlands	Amsterdam	Active	Apr 13, 2020	⋮

Sellers are listed, for each one the domain, country, city, status, and the date on which the record is updated. The following sections discuss how to add a new seller, update, delete, and activate seller accounts.
