

Add user to shared folder users

To add a user to the list of users and specify whether the user is allowed to share the folder or no, follow these steps:

1. Click , the following window appears:

The screenshot shows a dialog box titled "Add Users to Folder". It features a blue header bar with the title and a close button (X). The main content area is white and contains a list of users under the heading "Users". The list currently contains one entry, "User 1". To the right of the list is a toggle switch labeled "Allow Sharing", which is currently turned off. At the bottom of the dialog, there are two buttons: "CANCEL" and "SAVE".

2. Select the user you want, and click the slider button to allow the user to share the folder. By default, the slider is off and the user is not allowed to share the folder.
3. Click **Save**.
