

Import targets

Through this process, you can add the SKU target, if you want, and map the targeted attributes, and the aggregate attributes (optional). To import a file with targets, follow these steps:

1. Click the Import button, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1. File (active, blue circle), 2. Sheet (grey circle), 3. Mapping (grey circle), 4. Filter (grey circle with a checkmark), 5. Validation (grey circle), and 6. Information (grey circle with a checkmark). The main content area has two radio buttons: "Last Used File" (unselected) and "New File" (selected, blue circle). Below the radio buttons is a text field labeled "Filename:" with the placeholder text "[none]". To the right of the text field is a button labeled "SELECT...". At the bottom of the window are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field,
4. Click **Next**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar. Below the header is a progress bar with six steps: "File" (checked), "Sheet" (checked), "3 Mapping" (active), "Filter" (checked), "5 Validation" (checked), and "Information" (checked). The main area contains the text "Please select the sheet that contains the data you wish to import" and a dropdown menu labeled "Targets". At the bottom, there are two blue buttons: "BACK" and "NEXT".

You can click **Back** to return to the previous window.

5. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
6. Click **Next**, the following window appears:

7. Select the column of the sheet that matches each field, you can search for the field you want using the search field, at least one attribute should have a value, then click **Next**, the following window appears:

The screenshot shows a 'Import Data' dialog box with a blue header bar containing the title 'Import Data' and a close button (X). Below the header is a progress bar with six steps: 'File', 'Sheet', 'Mapping', 'Filter', 'Validation', and 'Information'. Each step has a checkmark icon, and the 'Validation' step is highlighted with a blue circle containing the number '5'. The main area of the dialog contains the text: 'Would you like to import all the rows in the sheet or only the rows that match a specific criteria?'. Below this text are two radio button options: 'Import All Rows' (which is selected) and 'Import Only the Rows that match the following criteria:'. At the bottom of the dialog are two blue buttons labeled 'BACK' and 'NEXT'.

8. Click the radio button next to the import method, either all rows or rows that match certain criteria, a validation window appears informing you if records are valid or not, if not, you need to fix the sheet then import the file again,
9. Click **Next**, the following window appears:

Import Data

✓ File

✓ Sheet

✓ Mapping

✓ Filter

✓ Validation

✓ Information

The sheet will be processed to identify if all the rows are valid to be imported

Status:

Finished
