

Update segmentation for multiple articles

To update segmentations for multiple articles, follow these steps:

1. Click the checkbox(es) next to the articles you want,
2. Click , the following window appears:

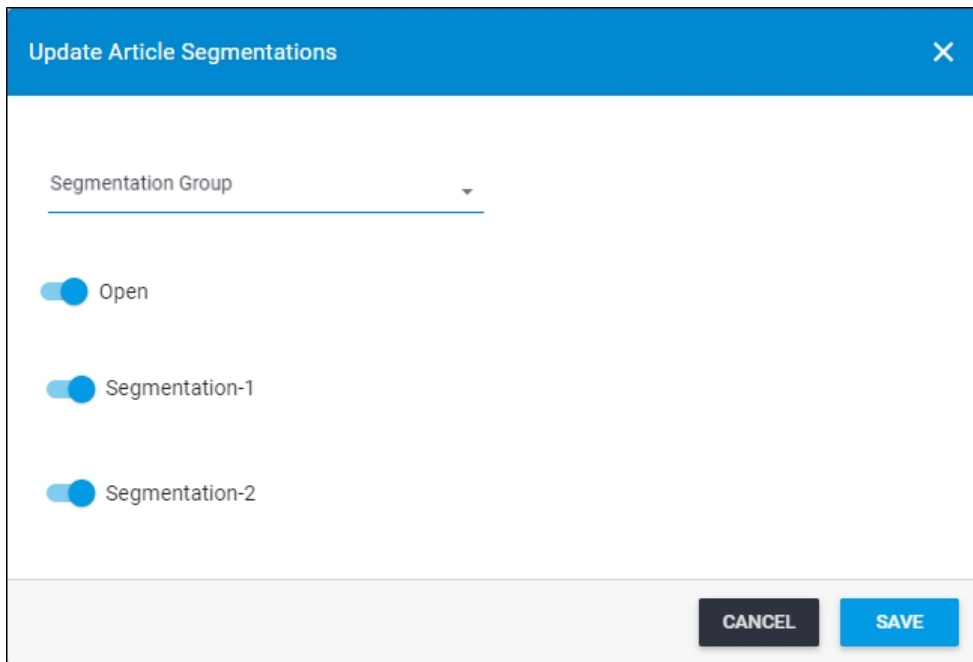

The screenshot shows a dialog box titled "Edit Article Segmentation" with a close button (X) in the top right corner. The dialog contains the following elements:

- A toggle switch labeled "Open" which is currently turned off.
- Two segmentation options, each with an unchecked checkbox and a slider button:
 - "Segmentation-1": The checkbox is unchecked, and the slider button is blue.
 - "Segmentation-2": The checkbox is unchecked, and the slider button is grey.
- At the bottom right, there are two buttons: "CANCEL" and "SAVE".

2. Click the checkbox next to the segmentation you want to update, unchecked checkboxes will remain unchanged,
3. Click the slider button next to the segmentation you want to assign to the article(s), the selected segmentation will be marked with "Yes", while the other segmentations will be marked with "No". If you select Open, all segmentations are assigned to the selected articles,
4. Click **Save**, a progress window is displayed and segmentations are updated.

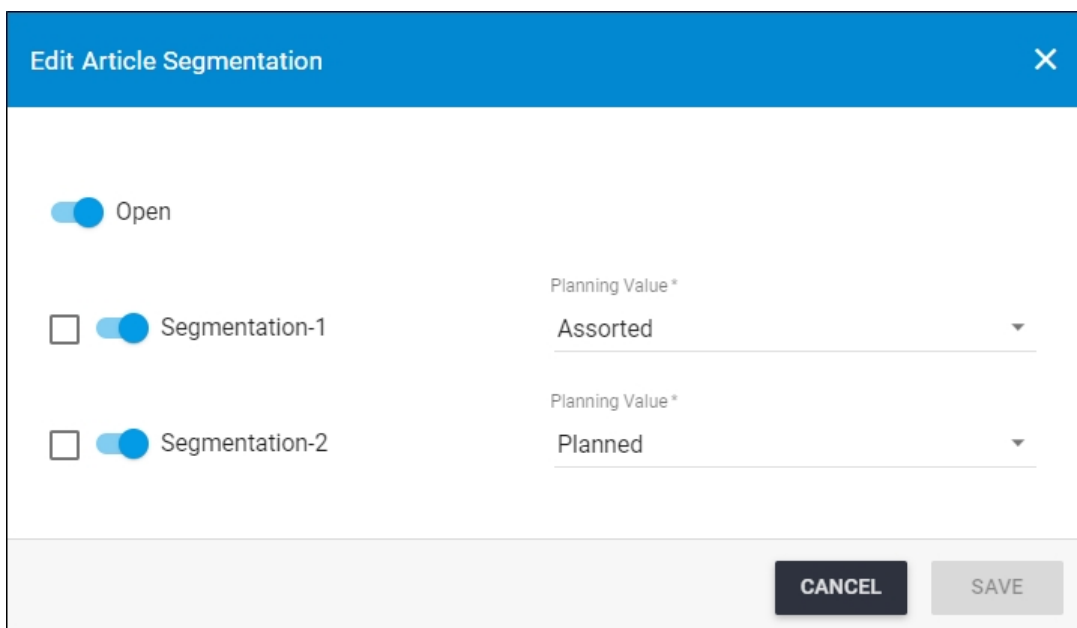

Notes:

- If a segmentation group is added to the selected catalog, the window appears as shown below:

Once you select the segmentation group, segmentations added to the group are automatically activated.

- If the “Segmentation Planning” option is enabled for the selected catalog, the window appears as shown below:

Click the slider button next to the segmentation you want to activate then select the

planning value from the dropdown menu below it.
