

Resources

Resources are typically files containing information about the products such as product description, washing instructions, and size charts, etc. Resource file types are defined for each seller, then resource files are uploaded to T1 and assigned to articles.

For more information on resources, refer to “[Resources](#)”.

Go to **Resources** tab, the following page appears:

Article	Delivery Dates	Resources	Images	Sizes	Prices	Segmentation	History	Related
<div>0 of 1 Selected</div>								
Resource Name	Resource Id	Status	Updated Date	Actions				
<input type="checkbox"/> Order Notes	7	Active	Nov 22, 2021					

The page displays the resources assigned to the selected article. For each resource its Id, status, and update date depending on the columns you have chosen to show using the Column chooser.

The following sections discuss how to assign a resource to an article, view resources, edit and delete resources, etc.
