

## Import forecasts

You can import a file with forecasts. The customer code, colorway number, and quantity are mandatory columns. To import a file with forecasts, follow these steps:

1. Click the **Import** button, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: 1. File (active, highlighted with a blue circle), 2. Sheet, 3. Mapping, 4. Filter (checked with a green checkmark), 5. Validation, and 6. Information (checked with a green checkmark). The main area of the window contains two radio buttons: "Last Used File" (unselected) and "New File" (selected, highlighted with a blue circle). Below the radio buttons is a text field labeled "Filename:" with the value "[none]" and a "SELECT..." button to its right. At the bottom of the window are two buttons: "BACK" and "NEXT".

2. Click **Select** to browse for the file you want to import,
3. Select the file then click **Open**, the name of the file you selected appears in its field, click **Next**, the following window appears:

The screenshot shows a window titled "Import Data" with a blue header bar and a close button (X) in the top right corner. Below the header is a progress bar with six steps: "File" (checked), "Sheet" (checked), "Mapping" (active, highlighted with a blue circle and the number 3), "Filter" (checked), "Validation" (active, highlighted with a grey circle and the number 5), and "Information" (checked). The main area of the window contains the text "Please select the sheet that contains the data you wish to import" and a dropdown menu with "forecasts" selected. At the bottom of the window are two blue buttons labeled "BACK" and "NEXT".

You can click **Back** to return to the previous window.

4. Select the sheet you want from the dropdown list in case your Excel file contains more than one sheet,
5. Click **Next**, the following window appears:
