

View order notifications

T1 automatically sends email notifications to authorized users. For example, when an order is imported, an email is sent to the user who imported the order confirming that the order is submitted successfully and another email is sent to the user authorized to approve or reject the order. As the order is approved or rejected, an email is sent to the user who submitted the order informing him of the order status, and so on.

Go to **Notifications** tab, the following page appears:

| Order | Order Lines | Rejected Order Lines | Files | Notifications | | | |
|---|-------------|----------------------|------------------------|-------------------------|-------------------|--------------|---------|
| <input type="checkbox"/> <input type="checkbox"/> 0 of 2 Selected | | | | | | | |
| Email | Channel | Notification Ty... | Title | Content | Status | Sent Date | Actions |
| <input type="checkbox"/> QA.User-20@trasix.con | Email | NewOrder | Order Received from Ci | Hello (ReceiverFirstNar | Sent Successfully | Oct 29, 2018 | ⋮ |
| <input type="checkbox"/> QA.User-20@trasix.con | Email | NewOrder | Order Received from Ci | Hello (ReceiverFirstNar | Sent Successfully | Oct 29, 2018 | ⋮ |

Emails for the selected order are listed, for each one, the email address, channel, notification type, email title, status, and email date are displayed. You can view the email details by selecting “View records” from the Actions menu next to it.
