

Update prices

T1 provides two methods for updating prices:

- Update prices for individual articles using the **Edit** option
- Update prices for a group of articles using the **Update Bulk** option

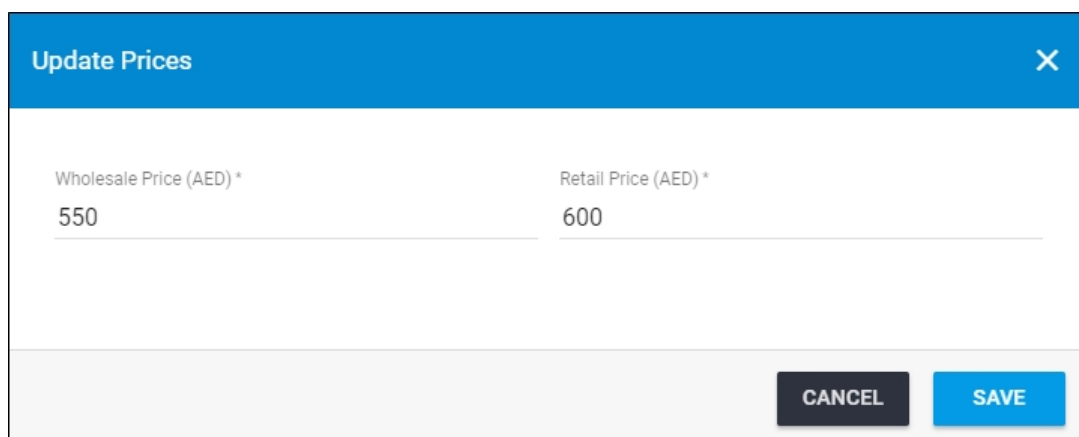

Notes:

- If the “External Change Management” flag is not activated, price changes for locked articles will not take effect until approved by the Change Management Approver user.
- If the “External Change Management” flag is activated and at least one article is locked, you cannot update prices of any of the articles. Changes to article prices are managed by an external system.
- Depending on the catalog configuration, the number of decimals for prices is validated, so for example, you cannot enter a price with 3 decimals if the catalog is configured to 2 decimals.

Update prices for individual articles

To update prices for individual articles, follow these steps:

1. Select “Edit Record” from the Actions menu next to the article which you want to update its price, the following window appears:

Wholesale Price (AED) *	Retail Price (AED) *
550	600

CANCEL SAVE

If the article is locked and the “External Change Management” flag is not activated, the window appears as shown below:

Update Prices ✕

Wholesale Price (AED) *	Retail Price (AED) *
220	250

Article is Locked, Please Provide Reason for Update *

0 / 2000

CANCEL **SAVE**

You need to enter the reason for the price change. As mentioned before, changes to locked articles prices do not take effect unless they are approved by the authorized user.

2. Update any of the displayed information,
3. Click **Save**, a message appears on the page informing you that the record is updated successfully.

Update bulk

This option allows you to update prices for multiple articles. To do so, follow these steps:

1. Select the articles for which you want to update the price by following any of these methods:
 - Click the checkbox on top of the records to select all articles then click ,
 - Click the checkbox(es) next to the article you want then click ,

The following window appears:

The screenshot shows a window titled "Edit Prices" with a blue header and a close button (X) in the top right corner. The main content area is white and contains two input fields. The first field is labeled "Wholesale Price (AED)" and has a small square checkbox to its left. The second field is labeled "Retail Price (AED)" and has a small square checkbox to its left, with the value "600" entered in the text box. At the bottom right of the window, there are two buttons: a dark blue "CANCEL" button and a light gray "SAVE" button.

If any of the selected articles is locked and the “External Change Management” flag is not activated, the window appears as shown below:

The screenshot shows a window titled "Edit Prices" with a blue header and a close button (X) in the top right corner. The main content area is white and contains two input fields. The first field is labeled "Wholesale Price (AED)" and has a small square checkbox to its left. The second field is labeled "Retail Price (AED)" and has a small square checkbox to its left. Below these fields, there is a text input field with the placeholder text "Article is Locked, Please Provide Reason for Update *". At the bottom right of the window, there are two buttons: a dark blue "CANCEL" button and a light gray "SAVE" button.

You need to enter the reason for the price change. As mentioned before, changes to locked articles prices do not take effect unless they are approved by the authorized user.

2. Enter the price values you want for each price group,
3. Click **Save**, progress is displayed,
4. Wait until the job is finished then refresh the page, values are updated for the selected articles.
