

# Export requests

You can export requests added to articles to check them. To do so, follow these steps:

1. Click **Export**, the following window appears:

If options are saved, a menu appears enabling you to select the export option you want as shown below:

Select the option you want, the Format window is skipped. You can delete any of the saved options by hovering the mouse over it then clicking the **Delete** icon.

2. Select "Requests", if no option is selected, then click **Next**, the following window appears:

3. Click **Next**, the following window appears:

4. Click the radio button next to the option you want:

- If you select “Full catalog”, requests for all the articles are exported.
- If you select “My favorite”, a dropdown menu appears to enable you to select the favorite tags you want.
- If you select “From Excel”, you need to browse for the Excel file containing the articles, select the sheet and map the columns.
- If you select “Selected Articles”, you need to paste a list of article numbers.
- If you select “List of styles”, you need to paste a list of model numbers.

5. Click **Next**, the Options window appears as shown in the below example:
