

## Add link

You can add a hyperlink to your slide. To do so, follow these steps:

1. Select Add Link from the **Insert** menu, the following window appears:

The image shows a dialog box titled "Add Link" with a close button (X) in the top right corner. Inside the dialog, there are two input fields. The first field is labeled "DISPLAY TEXT" and the second field is labeled "LINK". Below the input fields, there are two buttons: "CANCEL" on the left and "ADD" on the right. The "ADD" button is highlighted with a grey background.

2. Enter the display text and the link, each in its field,
3. Click **Add**, the link is added to the slide and you can press **Ctrl** and click the link to open it.
